Children Who

Struggle To Speak

The Kaufman Speech To Language Protocol

The presenter is a practicing clinician who has been treating children with apraxia of speech (CAS) and other speech sound disorders (SSD) for over 25 years.

Participants will learn a word simplification system that can dramatically improve speech intelligibility.

This seminar is focused on treatment, with actual therapy session videos appearing early and often throughout the lecture.

SPEAKER:

Nancy R. Kaufman, MA, CCC-SLP

*Learn the proven Kaufman
methods to treat children with
apraxia of speech and other
speech sound disorders.*

SEMINAR DESCRIPTION

Many children are unable to speak or are unintelligible because they either lack an adequate repertoire of consonants and vowels in isolation, or because they have difficulty combining the oral motor movements necessary to form words. Quite often the above deficiencies are rooted in the neurological condition of apraxia of speech. Due to the prevalence of this condition, it is important that early intervention clinicians be comfortable diagnosing and treating this population. In fact, ASHA has issued a position stating that the individual best able to diagnose and treat apraxia of speech in children is the SLP.

This clinical seminar will focus on evaluation and treatment. The seminar begins with discussions of differential diagnoses of apraxia, flaccid dysarthria and phonological disorders, then moves into practical and functional treatment techniques. Introduced will be the key concepts of **phonemic simplification, successive word approximations and pivot syllables**, and how treatment interventions derived from these concepts have proven highly effective in increasing speech intelligibility in children with apraxia of speech and other speech sound disorders.

Functional and focused on interventions, actual treatment session video clips appear early and often throughout the lecture. The easy-to-incorporate methods, strategies and techniques presented will provide clinicians with the necessary tools to help children with apraxia of speech begin progressing immediately from a simple core vocabulary toward phrases and eventually to sentences and even conversational speech.

“A wealth of practical information presented in a lively and easy-to-understand manner! One of the best courses I’ve attended!”

**More than
96% of past
attendees would
recommend this
seminar to
a colleague.**

SEMINAR OBJECTIVES

1. Describe a hierarchy of simple to complex motor-speech skills.
2. Utilize this hierarchy to evaluate children who have severe speech disorders.
3. Implement a specific treatment approach using phonological simplifications for children with apraxia of speech.
4. List apraxia treatment techniques to include shaping word approximations.
5. Analyze video clips to establish goals per this approach.
6. Understand and analyze a norm-referenced, standardized test which relates directly to this approach in order to identify this unique population of children.

SPEAKER

Nancy R. Kaufman, M.A., CCC-SLP,

is a leading expert and international lecturer on the topic of children with apraxia of speech (CAS) and other speech sound disorders (SSD). Her unique methods of shaping word approximations toward functional, target vocabulary and creating and applying the concept of pivot syllables have proven highly effective for establishing verbal skills and increasing speech intelligibility. In addition to lecturing, Nancy remains a full-time clinician as the Director of the Kaufman Children’s Center for Speech, Language, Sensory-Motor and Social

Connections, Inc. in West Bloomfield, Michigan. The Kaufman Children’s Center (KCC) has been recognized as one of the most effective centers for treating children with apraxia of speech and severe language disorders, including language processing and autism spectrum disorders. The KCC has earned a reputation for excellence, warmth and successful outcomes. The KCC is a recipient of the Clinical Service Award from the Michigan Speech and Hearing Association. Nancy is also on the Professional Advisory Board of The Childhood Apraxia of Speech Association of North America (CASANA).

Nancy is the author of several widely used assessment and treatment materials related to apraxia of speech. Publications to her credit include: the *Kaufman Speech Praxis Test for Children*, the *Kaufman Speech Praxis Treatment Kits for Children* (Basic and Advanced Level Kits), the *Kaufman Speech Praxis Workout Book*, and the *K & K Sign to Talk NOUNS* and *K & K Sign to Talk VERBS*.

Learn how incorporating phonemic simplification into your treatment sessions can quickly and dramatically improve speech intelligibility.

LOCATIONS

SAN DIEGO, CALIFORNIA • Friday, January 22, 2010

Seminar Location:

Sheraton San Diego Hotel Mission Valley
1433 Camino Del Rio South, San Diego, CA 92108

Phone: 619-260-0111

ORLANDO, FLORIDA • Friday, February 19, 2010

Seminar Location:

Rosen Plaza Hotel
9700 International Drive, Orlando, FL 32819

Phone: 407-996-9700

BATON ROUGE, LOUISIANA • Friday, February 26, 2010

Seminar Location:

Holiday Inn South
9940 Airline Highway, Baton Rouge, LA 70816

Phone: 225-924-7021

BENTONVILLE, ARKANSAS • Friday, March 5, 2010

Hosted by: Children's Therapy TEAM

Seminar Location:

Doubletree Guest Suites Bentonville/Rogers
301 SE Walton Blvd., Bentonville, AR 72712

Phone: 479-845-7700

MILWAUKEE, WISCONSIN • Friday, March 19, 2010

Seminar Location:

Clarion Hotel & Conference Center
5311 South Howell Avenue, Milwaukee, WI 53207

Phone: 414-482-8896

DES MOINES, IOWA • Friday, May 14, 2010

Hosted by: ChildServe, Inc.

Seminar Location:

ChildServe, Inc.
5406 Merle Hay Road, Johnston, Iowa 50131

Phone: 515-727-8750

ACCREDITATION

Northern Speech Services is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. See course information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

NSS is approved as a provider of continuing education by the **California Speech-Language Pathology and Audiology Board**. Provider #PDP4.

NSS is approved as a provider of continuing education by the **Florida Board of Speech-Language Pathology and Audiology**. Provider # SPA-026.

NSS is approved as a provider of continuing education by the **Iowa Board of Speech-Language Pathology and Audiology**. Provider #169.

SEMINAR OUTLINE

7:15-7:50	Check In and Onsite Registration (Coffee and Tea)	9:45-11:15	Teaching Successive Verbal Approximations (Continued)
7:50-8:00	General Seminar Information	11:15-12:15	Lunch (on your own)
8:00-8:30	Identification of Verbal Apraxia vs. Dysarthria vs. Phonological Impairments	12:15-1:45	Techniques To Move Individuals into Expressive Language
8:30-9:00	The Kaufman Speech To Language Protocol: Assessing Consonant/Vowel Integrity and Error Patterns	1:45-2:00	Break
9:00-9:30	Teaching Successive Verbal Approximations Toward Target Vocabulary	2:00-3:30	Cueing Techniques and Refinement and Integration Skills
9:30-9:45	Break	3:30-3:45	Final Questions
		3:45	Adjourn and Sign Out

REGISTRATION INFORMATION

4 WAYS TO REGISTER:

1. Online: www.northernspeech.com
2. Phone: 888-337-3866
3. Mail: NSS, P.O. Box 1247, Gaylord, MI 49734
4. Fax: 888-696-9655

REGISTRATION FEE:

INDIVIDUAL: \$195.00

GROUP OF 2+: \$185.00 each*

GROUP OF 5+: *\$145.00 each*

PARENT: \$125.00 each (no CEUs)

**Groups MUST register together*

REGISTER EARLY – SPACE IS LIMITED

LATE FEE: Add \$20 if registering less than two weeks prior to seminar.

CANCELLATIONS: Tuition will be refunded less a \$25 processing fee, if written notification is received by NSS up to two weeks prior to the seminar. Two weeks to 72 hours prior to seminar date 50% refund; 72 hours or less no refund. NSS reserves the right to cancel the event 7 days prior to the seminar date.

This program is offered for .6 CEUs (Intermediate level; Professional area).

INTENDED AUDIENCE: Speech-Language Pathologists in clinical practice who evaluate and treat children ages 2-10 with speech/language disorders. Parents of children with apraxia of speech are also invited to attend, though the seminar retains a clinical focus.

LEVEL: Intermediate.

SPECIAL NOTE:

AUDIO TAPING NOT ALLOWED

“Excellent course!

I will now be able to work these techniques into my therapy sessions with children with motor coordination difficulties.”

The KAUFMAN
Speech Praxis
Treatment Kits

\$25 Off
each kit!

Kit 1 & 2

A proven method
for teaching
young children to
quickly produce and
combine the oral
motor movements
necessary to develop
functional verbal
language.
(Kit 2 not shown)

KAUFMAN Speech
Praxis Workout Book
Designed to move children
into expressive language

\$15 Off!

NAUGHTY BETTY

This Workout Book was developed for both clinicians and parents. The materials are designed to give children with apraxia of speech a verbal-motor workout to stabilize the pronunciation of consonant-vowel combinations for /m, p, b, t, d, n, h/ in words and phrases and to move children into functional expressive language. These are the sounds included in the Kaufman Speech Praxis Treatment Kit (basic level) that allow for rapid development of functional verbal communication. Children with apraxia of speech need specific word types to practice after structured therapy sessions. This Workout Book contains these specific word types using colorful pictures that grab and hold attention. The Workout Book is the next step in treatment once a child masters the sounds in the basic-level Kaufman Speech Praxis Treatment Kit. The materials are **REPRODUCIBLE**.

\$15 Off!

The K&K Sign to Talk
Shaping Verbal Language
for Individuals with Autism and
other Developmental Challenges

These kits are designed for professionals who frequently use simultaneous communication (sign and vocalization) to teach children with autism to request, or mand, with sign language. The kits contain real-life, color photos depicting food items, toys, and actions (verbs) that are frequently requested by children with developmental disabilities. The front of the card shows a large 5x7 inch, full-color photo of the target item. The reverse side contains a written description of the sign (ASL) and a photo of the hand shapes. Also listed on each card are a series of *word shells* designed by Nancy Kaufman, MA, CCC-SLP, to systematically guide a child toward functional clarity. The accompanying manual describes treatment strategies for implementation of sign language to promote vocal communication, and it describes the systematic implementation of Kaufman's *word shells* to improve functional vocal communication. These kits are designed specifically for children with autism and apraxia, but would be helpful tools for any child with apraxia or unintelligible speech.
