**PITTSBURGH, PA • February 24, 2012**  
**SYRACUSE, NY • March 23, 2012**  
**DAYTON, OH • April 13, 2012**

**A 30-year  
history of providing  
quality continuing  
education programs.**

**SPEAKER:**  
**Nancy R. Kaufman, MA, CCC-SLP**

This seminar is focused on treatment with actual therapy session videos appearing early and often throughout the lecture.

Participants will learn a word simplification system that can dramatically improve speech intelligibility.

The presenter is a practicing clinician who has been treating childhood apraxia of speech (CAS) and other speech sound disorders (SSD) for over 25 years.

## SEMINAR DESCRIPTION

Many children are unable to speak or are unintelligible because they either lack an adequate repertoire of consonants and vowels in isolation, or because they have difficulty combining the oral motor movements necessary to form words. Quite often the above deficiencies are rooted in the neurological condition of apraxia of speech. Due to the prevalence of this condition, it is important that early intervention clinicians be comfortable diagnosing and treating this population. In fact, ASHA has issued a position stating that the individual best able to diagnose and treat apraxia of speech in children is the SLP.

This clinical seminar will focus on evaluation and treatment. Introduced will be the key concepts of **phonemic simplification, successive word approximations and pivot syllables**, and how treatment interventions derived from these concepts have proven highly effective in increasing speech intelligibility in children with apraxia of speech and other speech sound disorders.

Functional and focused on interventions, actual treatment session video clips appear early and often throughout the lecture. The easy-to-incorporate methods, strategies and techniques presented will provide clinicians with the necessary tools to help children with apraxia of speech begin progressing immediately from a simple core vocabulary toward phrases and eventually to sentences and even conversational speech.

**“A wealth of practical information presented in a lively  
and easy-to-understand manner! One of the best courses**

**I’ve attended!”**

## SEMINAR OBJECTIVES

*At seminar conclusion, participants will be able to:*

1. Describe a hierarchy of simple to complex motor-speech skills.
2. Utilize this hierarchy to evaluate children who have severe speech disorders.
3. Implement a specific treatment approach using phonological simplifications for children with apraxia of speech.
4. List apraxia treatment techniques to include shaping word approximations.
5. Analyze video clips to establish goals per this approach.
6. Understand and analyze a norm-referenced, standardized test which relates directly to this approach in order to identify this unique population of children.

**Learn how incorporating  
phonemic simplification  
into your treatment  
sessions can quickly and  
dramatically improve  
speech intelligibility.**

## SPEAKER

**Nancy R. Kaufman, MA, CCC-SLP,**

is the owner and Director of the Kaufman Children’s Center for Speech, Language, Sensory-Motor, and Social Connections, Inc. located in West Bloomfield, Michigan. Since 1979, Nancy has dedicated herself to establishing the Kaufman Speech to Language Protocol (K-SLP), a treatment approach to help children become effective vocal communicators. She serves on the Professional Advisory Board of the Childhood Apraxia of Speech Association of North America (CASANA) and is the Speech and Language Pathologist Consultant for the Parish School and Carruth Center in Houston, Texas. Nancy received the 2011 Distinguished Service Award from the Michigan

Speech-Language-Hearing Association, and she was the recipient of the 2010 Outstanding Alumni Award from Michigan State University College of Communication Arts & Sciences. The Kaufman Children’s Center (KCC) received the Clinical Service Award from the Michigan Speech-Language-Hearing Association and *Corp! Magazine’s* Best of Michigan Business award. Nancy is also an honoree of the Lawrence Technological University Leaders & Innovators program.

She is the author of the *Kaufman Speech Praxis Test for Children*, the *Kaufman K-SLP Treatment Kits for Children*, the *K-SLP Workout Book*, the *K-SLP Mutt Family Practice Puzzle*, the *Kaufman Speech to Language Protocol Instructional DVD Set*, and co-author of *K&K Sign to Talk: Nouns* and *K&K Sign to Talk: Verbs*. Nancy lectures locally, nationally, and internationally on the subject of childhood apraxia of speech and other speech sound disorders in children. Many specialists in the field of applied verbal behavior (AVB) have adopted the K-SLP for children with autism spectrum disorders. Families from around the United States and the world travel to the KCC to participate in intensive and specialized therapy programs. Nancy received her B.A. at Michigan State University and M.A. at Wayne State University, having been awarded a graduate assistantship. The KCC continues to grow and has earned a reputation for excellence, warmth, and successful outcomes. Nancy has three grown children and resides with her husband in West Bloomfield, Michigan.
