

Speaker

James Coyle, Ph.D., CCC-SLP, BCS-S, is an Associate Professor of Communication Science and Disorders at the University of Pittsburgh where he co-developed the department's clinical doctorate program in Medical Speech Language Pathology. He teaches undergraduate, Master's and doctoral SLP students both in the classrooms and clinics through his active caseload at the University of Pittsburgh Medical Center, where he also conducts dysphagia research. He lectures nationally and internationally about the medical aspects of the speech-language pathology profession. He is a Board Certified Specialist in Swallowing Disorders and an ASHA Fellow.

Speaker Financial Disclosures:

Financial – James Coyle is presenter of CE seminars and online CE courses sponsored by Northern Speech Services; receives speaking fees and royalties.

Nonfinancial – James Coyle has no relevant nonfinancial relationships to disclose.

Seminar Objectives

At the conclusion of this program, the participant will be able to:

1. Describe the ventilatory and respiratory roles of the respiratory system.
2. State how common pulmonary diseases affect normal breathing.
3. List three risk factors for pneumonia.
4. Describe the effects of aging on the respiratory system.
5. Explain how parts of the digestive system work in healthy states.
6. List one esophageal disorder related to speech pathology practice.
7. List two behaviors to identify when assessing a patient with a tracheostomy.
8. State one compensatory intervention technique that would be appropriate for a patient with a digestive disorder.
9. State one restorative intervention technique that would be appropriate for a patient with a pulmonary disorder.

Starting at **\$24!**

- Over 100 clinically relevant, treatment-focused programs
- Topics include cognition, dysphagia, voice, ethics, counseling, and more...
- Visit NorthernSpeech.com/CEUs

Who Should Attend?

SLPs who work with adult dysphagic patients across the care continuum, including:

- Skilled Nursing
- Long-Term Care
- Home Health
- Hospital Acute
- Hospital Rehab
- Hospital Outpatient

Seminar Description

Speech-Language Pathologists working in the medical setting face unique challenges. Patients referred for evaluation and treatment often have multiple diagnoses impacting swallowing function. This seminar provides essential information on managing these complex adult patients. Discussed will be swallow function and treatment planning as related to body systems, the aging process, and patient lab values. Specifically, this clinically focused seminar will:

- Identify risk factors of pneumonia.
- Differentiate between aspiration and other etiologies of pneumonia.
- Describe respiratory and deglutitive interactions in the aerodigestive tract.
- Explain how common pulmonary diseases affect normal breathing.
- Review common esophageal pathologies and how they could lead to dysphagia symptoms.
- Describe what are appropriate and informed decisions regarding patients with a tracheostomy.
- Explain the meaning of various diagnostic reports in the medical record.
- Identify when symptoms of dysphagia related to normal aging magnify the effects of disease.
- Discuss various compensatory and restorative behavioral treatments to determine when they are, and are not, appropriate.

Accreditation

Intended Audience:
SLPs who evaluate and treat adult patients with dysphagia across the continuum of care.

This program is offered for 1.2 CEUs
(Intermediate level; Professional area).

Seminar Outline

FRIDAY, APRIL 20, 2018

7:30 – 7:55	<i>Attendee Check In and Onsite Registration (Coffee & Tea)</i>
7:55 – 8:00	Welcome and General Seminar Information
8:00 – 8:30	The Role of the Speech-Language Pathologist in a Medical Setting
8:30 – 9:30	The Two Components of Breathing and Why They are Interdependent and Important
9:30 – 10:30	Common Pulmonary Diseases in Adults and How They Alter Breathing and Swallowing
10:30 – 10:45	Break
10:45 – 11:45	Is it Pneumonia, Aspiration Pneumonia, or Something Else and How Do Lungs Respond to Pneumonia?
11:45 – 12:45	Lunch on Own
12:45 – 1:15	The Effects of Aging on the Respiratory System
1:15 – 2:00	Understanding Chest X-Ray Reports
2:00 – 2:45	Understanding the Digestive System and Its Many Functions
2:45 – 3:00	Break
3:00 – 4:00	Normal Esophageal Structure and Function and Esophageal Test Procedures: What Do These Things Mean?
4:00 – 4:30	Structural Disorders of The Esophagus And Implications for the SLP
4:30	Adjourn and Sign Out

SATURDAY, APRIL 21, 2018

7:30 – 7:55	<i>Sign In (Coffee & Tea)</i>
8:00 – 9:00	Esophageal Motility Disorders and Treatment Protocols Including Considerations for Reflux Disease
9:00 – 9:45	Tracheostomy Considerations and Effect On Swallowing
9:45 – 10:00	Break
10:00 – 11:00	Assessment and Treatment Planning for Patients with Tracheostomy: Are Protocols the Answer?
11:00 – 12:00	Lunch on Own
12:00 – 1:00	Compensatory Treatments for the Dysphagic Patient What They Are and Who Can Benefit from These Interventions? Discussion Will Include Use of Thickened Liquids and Water Protocols
1:00 – 2:15	Restorative Treatments For Dysphagic Patients: What Are They And Who Can Benefit From These Interventions?
2:15 – 2:30	Summary And Questions
2:30	Adjourn, Sign Out and Certificates
