

Speakers

Lori Burkhead Morgan, PhD, CCC-SLP, has been a practicing speech-language pathologist since 1994 in a variety of healthcare settings. She earned a PhD from the University of Florida in 2005, focusing on applying exercise science principles to communication and swallowing rehabilitation. Her interest is in the development of more effective dysphagia rehabilitation practices.

Speaker Disclosures:

Financial — Lori Burkhead Morgan is presenter of CE seminars sponsored by Northern Speech Services; receives speaking fees.

Nonfinancial — Lori Burkhead Morgan has no relevant nonfinancial relationships to disclose.

Edie R. Hapner, PhD, CCC-SLP, has been a practicing voice clinician for over 35 years with over 36 publications in voice disorders. Dr. Hapner is co-editor of Voice Disorders Clinical Case Studies and curriculum designer and instructor for the voice curriculum for Medbridge Education, Inc. Her research interests are in aging voice, adherence, and spasmodic dysphonia.

Speaker Disclosures:

Financial — Edie R. Hapner is presenter of CE seminars sponsored by Northern Speech Services; receives speaking fees.

Financial — Edie R. Hapner is faculty and consultant with Medbridge; receives royalties.

Financial — Edie R. Hapner is author with Plural Publishing Group; receives royalties.

Nonfinancial — Edie R. Hapner has no relevant nonfinancial relationships to disclose.

Seminar Description

Voice & Swallowing Clinicians . . . we are more alike than different.

Two practicing speech-language pathologists, one a voice clinician and one a dysphagia clinician, team up to present this intensive, two-day seminar. Described will be shared anatomy and physiology of voice and swallow and effective evaluation and treatment procedures that can impact both voice production and swallowing function. Presentation will include demonstration of techniques and hands-on practice in assessment and treatment modalities for both voice and swallowing.

Presented will be the anatomy, physiology and neuroanatomy of the upper aerodigestive tract with the opportunity to view the larynx from the lens of both the voice and the dysphagia clinician. Utilizing the same video based cases, both presenters will develop treatment plans from their perspective voice or dysphagia specialties, thus providing participants with insight into the areas that are omitted when only viewing with a singular specialty lens.

Case presentations will highlight deconditioning due to illness, loss of strength due to sarcopenia, or impaired messages to the muscles due to neurological damage. Particular time and attention will be paid to providing participants with useful, evidence-based treatment strategies for the problems of voice and swallowing in each video case presentation. Participants will leave the seminar with useful treatment techniques to use in therapy with their patients who are presenting with both voice and swallowing disorders.

Seminar Objectives

At the conclusion of this program, the participant will be able to:

1. Identify 5 validated tools to use in the assessment of parameters of importance in voice and swallowing.
2. Describe 3 treatment approaches that can be used in both the treatment of dysphonia and dysphagia.
3. Translate information from principles of exercise science into treatment decisions in voice and swallowing.
4. Integrate information from clinical and instrumental assessments and knowledge of exercise principles to determine evidence-based, person-centered treatment.

Seminar Outline

DAY ONE

7:30 – 7:55	Sign In and Onsite Registration
7:55 – 8:00	Welcome and General Seminar Information
8:00 – 9:30	The upper aerodigestive tract: commonalities in voice and swallowing
9:30 – 9:45	Break
9:45 – 11:30	Expanding the mind's eye: using your clinical hypotheses to drive your diagnostic testing in voice and swallowing
11:30 – 12:30	Lunch on Own
12:30 – 2:00	Person vs parts: looking at the parts in the context of the person including quality of life and decisional balance
2:00 – 2:15	Break
2:15 – 4:00	Ethics, autonomy, and standardizing evaluation and reporting
4:00 – 4:30	Questions, case discussions, and closing
4:30	Adjourn and Sign Out

DAY TWO

8:15 – 8:30	Sign In
8:30 – 10:00	Principles of exercise science and their application to therapy
10:00 – 10:15	Break
10:15 – 12:00	Therapies that work
12:00 – 12:15	Questions and closing
12:15	Adjourn, Sign Out and Certificates
