Who Should Attend?
SLPs who work with adult dysphagic patients across the care continuum, including:
- Skilled Nursing
- Hospital Acute
- Long-Term Care
- Hospital Rehab
- Home Health
- Hospital Outpatient

SEMINAR DESCRIPTION
Speech-Language Pathologists working in the medical setting face unique challenges. Patients referred for evaluation and treatment often have multiple diagnoses impacting swallowing function. This seminar provides essential information on managing these complex adult patients. Discussed will be swallowing function and treatment planning as related to body systems, the aging process, and patient lab values. Specifically, this clinically focused seminar will:
- Identify risk factors of pneumonia.
- Differentiate between aspiration and other etiologies of pneumonia.
- Describe respiratory and deglutitive interactions in the aerodigestive tract.
- Explain how common pulmonary diseases affect normal breathing.
- Review common esophageal pathologies and how they could lead to dysphagia symptoms.
- Describe what are appropriate and informed decisions regarding patients with a tracheostomy.
- Explain the meaning of various diagnostic reports in the medical record.
- Identify when symptoms of dysphagia related to normal aging is not a disease.
- Discuss various compensatory and restorative behavioral treatments to determine when the y are, and are not, appropriate.

COURSE OBJECTIVES
At the conclusion of this program, the participant will be able to:
1. Describe the ventilatory and respiratory roles of the respiratory system.
2. State how common pulmonary diseases affect normal breathing.
3. List three risk factors for pneumonia.
4. Describe the effects of aging on the respiratory system.
5. Explain how parts of the digestive system work in healthy states.
6. List one esophageal disorder related to speech pathology practice.
7. List two behaviors to identify when assessing a patient with a tracheostomy.
8. State one compensatory intervention technique that would be appropriate for a patient with a tracheostomy.
9. State one restorative intervention technique that would be appropriate for a patient with a pulmonary disorder.

Medical Speech Pathology and Dysphagia Practice:
Managing Complex Adult Patients With Pulmonary, Digestive And Airway Disorders

SPEAKER: James Coyle, Ph.D., CCC-SLP, BCS-S

Online CEUs from Northern Speech Services
Starting at $24!
- Over 100 clinically relevant, treatment-focused programs
- Topics include cognition, dysphagia, voice, ethics, counseling, autism, apraxia, language and fluency

Two weeks to 72 hours prior to seminar registration will receive a 50% tuition refund, 72 hours to 24 hours prior to seminar registration will receive a 25% tuition refund, and 24 hours or less prior to seminar registration registration will receive no tuition refund.

ACCREDITATION
California SLP is approved as a provider of continuing education by the California Speech-Language Pathology and Audiology Board. Provider #0124.

Prerequisite: Must have a degree in Speech-Language Pathology.

This course is offered for 1.2 ASHA CEUs (Intermediate level, Professional area).

Continuing Education is provided by Northern Speech Service, Inc., a wholly owned subsidiary of Speech Pathology Evaluations, Inc., and is accredited by the American Speech-Language-Hearing Association. This course is offered as a provider of continuing education by the California Speech-Language Pathology and Audiology Board. Provider #0124.

SEMINAR OUTLINE

FREMONT, CA April 7-8, 2017
12:00pm-12:30pm Registration (Sign in and pick up handouts)
12:30pm-1:00pm General Seminar Information
1:00pm-2:00pm The Role of the Speech Pathologist in a Medical Setting
1:30pm-2:30pm The New Components of Breathing and Why They Are Interdependent and Important
2:30pm-3:30pm Common Pulmonary Diseases In Adults and How They Affect Breathing and Swallowing
3:30pm-4:30pm Break
4:30pm-5:30pm Is It Pneumonia, Aspiration Pneumonia, orSomething Else and How Do Lung Tests Reveal Pneumonia?
4:30pm-5:05pm The Effects Of Ageing On The Respiratory System
5:05pm-6:00pm Understanding Chest X-Ray Reports
6:00pm Adjourn and Sign Out

Saturday, April 7, 2017
7:30am-7:55am Sign In
8:00am-8:45am Understanding the Digestive System and How it Functions
8:45am-9:45am Normal Esophageal Structure and Function And Esophageal Test Procedures: What Do These Things Mean?
9:45am-10:10am Structural Disorders of the Esophagus And Implications for the Speech Pathologist
10:10am-10:30am Break
10:30am-11:30am Esophageal Mainly Disorders And Treatment Protocols Including Considerations For The Management of Reflux Disease
11:30am-12:15pm Tracheostomy Considerations and Effect on Swallowing
12:15pm-1:15pm Lunch on Own
1:15pm-2:30pm Assessment and Treatment Planning for Patients with Tracheostomy: Are Protocols the Answer?
2:30pm-3:15pm Complications From the Dysphagic Patient: Who Are They And Who Can Benefit From These Interventions? Discussion Will Include Use of Exercise Thickeners Liquids, and Water Protocols
3:15pm-3:30pm Break
3:30pm-4:30pm Restorative Treatments for Dysphagic Patients: Who Are They And Who Can Benefit From These Interventions?
4:30pm-4:45pm Summary and Questions
4:45pm Adjourn, Sign Out and Pick Up Certificates

GLENDALE, CA April 22-23, 2017
