

Date: \_\_\_\_\_

Dear Parent(s):

As part of my involvement with your child, I will be providing some social language skills training using the *Color My Conversation* program.

This multi sensory program incorporates a variety of intriguing activities (i.e. music, movement, crafts, games, etc.) into its lessons, which focus on practicing conversation skills. One of the goals in the *CMC* program is to use language that is simple and practical so that the concepts can be easily recalled when being used in the real world.

So that you can follow along with the vocabulary and goals being presented, I will send a Parent Letter home at the start of most lessons. Lessons tend to vary in length; some may be completed within a couple of weeks, and others may be implemented over a longer period of time.

The Parent Letter will provide a description of the conversation skills being practiced. It may also provide some simple suggestions that you may do if you would like to help your child with the concepts being trained.

Thank you for your support!

Sincerely,

\_\_\_\_\_
